

FINANCE AND TRADE.

Unvaried Monotony in Local Financial Circles.

The Markets Rather Less Active—Provisions and Hogs Weak.

Breadstuffs Firm—Easier, but Closed Firm—Stocks of Grain in Sight.

FINANCIAL.

The day brought forth the same lack of news in financial circles as those that have preceded it for a month or more. The demand for bank accommodations is restricted mainly to the regular customers of the banks, and they make as little paper as they can. The condition of business generally and of speculative enterprises is particularly quiet so few opportunities to outside operators that they are borrowing almost nothing.

Rates of discount were 8 1/2 per cent at the banks to regular customers. On the street, the usual variations on bank rates were made. New York exchange remains steady, and was sold between banks at 50 1/2 per cent premium. The clearings were \$2,400,000.

SAN FRANCISCO MINING STOCKS.

Between the 1st of May and June 16 there was a rise of \$21,400,000 in the market value of twenty-eight of the leading claims on the Comstock lode. There have been two theories about this rise, one that it was due to a fear that in the summer elections old manipulators might lose control of certain claims if prices were allowed to continue to rise as they were rising in May, and the other being a reported agreement among heavy owners to take stocks liberally so as to restore confidence, and thus help out in the matter of pending and prospective assessments. The following shows the movement between May 12 and June 20, and may be compared with the San Francisco report in the telegraphic advices where the variation in price for the past six weeks up to yesterday afternoon is given:
